

*Delight your senses with scented candles in twinkling votives.*

**You will need:**

- Pilot gold, silver, and white markers
- Jam jars
- Fine craft wire, silver and gold
- Assortment of glass and metal beads
- Coloured candles

**Step 1**

Decorate the jam jars with gold, silver and white markers. Dots, curls and scribbled lines are easy and effective, so keep it simple and don't forget to decorate the top edges.

**Step 2**

Cut a metre of craft wire. Add three small beads and then add a larger bead. Place the larger bead about 1cm from the smaller beads and then twist the wire until the top of the twist meets the smaller beads..

**Step 3**

Continue in this way until you can encircle the neck of the jar. Twist the ends of the wire together to hold it in place and add a decorative handle if desired. Add a coloured candle.

*Safety note:*

The handle is for decoration only. Use only non-flammable materials for this project and never leave lighted candles unattended.
