

Use an old CD to make a sparkling mirror tile motif.

You will need:

- Pilot gold and silver markers – extra fine
- White card blank
- Old CD
- Strong scissors and eye protection
- Silver thread
- Foam self-adhesive pad
- PVA adhesive

Step 1

Using a pair of strong scissors and wearing eye protection, cut a tile of plastic from an old CD, approximately 3.5cm x 2.5 cm. Kids, please ask a grown up to do this for you!

Step 2

Using a gold marker, make dots to form a Christmas tree and, when dry, add silver dots. Add a gold dot at each corner of the tile. Allow to dry.

Step 3

Fix the tile onto the card using a foam self-adhesive pad. Add a tie of silver threads to the fold of the card, using a small dab of PVA adhesive to secure the knot.
