CHRISTMAS CARD

Step 1

Attach a torn purple strip at the top of the card. Write the words onto white card, using the brown pen. Cut out each word and glue them in place, adding a small punched star in the centre.

Step 2

Use gold and silver markers to make a cloud of dots in various sizes, as shown. Cut a star from white card and decorate it around the edges with the brown G-TEC-C4 pen. Trap a gold wire scroll beneath a foam pad and top it with the star.

Step 3

Add a silver gem to the centre of the star. Punch several small white and purple stars and attach them as shown, scattered across the card.

CHRISTMAS GIFTWRAP

Step 1

Wrap the gift with orange silk tissue paper, using glue stick to secure it invisibly at the edges. Create a cloud of gold and silver dots, as before, taking it around the side of the package.

Step 2

Cut a star in white card. Punch it and add a gold cord. Make a small greeting panel and attach, trapping the gold cord beneath it.
